

Sun Safe protection in schools and early childhood education services

Purpose

All department school sites and early childhood education and care services must have a sun protection policy in effect for school terms 1, 3 and 4 and whenever ultra violet (UV) radiation levels reach 3 or above. Sites must inform the school community including employees, students, parents and volunteers of the sun protection policy. Children and young people are encouraged to be responsible for their own sun protection.

Using sun protection

The school uses a combination of sun protection measures for all outdoor activities on and off site during terms 1, 2, 3 and 4 including:

Clothing

Sun protective clothing is included in the school uniform/dress code and sports uniform. The clothing is cool, loose fitting and made of closely woven fabric. It includes shirts with collars and elbow length sleeves, longer style dresses and shorts and rash tops or t-shirts for outdoor swimming.

Sunscreen

The school supplies SPF 30 or higher broad spectrum, water resistant sunscreen for staff and students' use.

Sunscreen is available for all students to apply before going outdoors and reapplied every two hours if remaining outdoors.

Strategies are in place to remind students to apply sunscreen before going outdoors (e.g. verbal reminder, Sunscreen visible and accessible for use by students) Families can provide sunscreen for their child if they choose.

Hats

All students and staff are required to wear hats that protect their face, neck and ears broad brimmed or bucket hats whenever they are outside. Baseball or peak caps are not acceptable. Hats can be purchased from the front office.

Shade

Care is taken during the peak UV radiation times, and outdoor activities are scheduled outside of these times or in the shade where possible. Sports days and other outdoor events to be held during term two or earlier in the day where practical.

Students are encouraged to use available areas of shade when outside.

Students who do not have appropriate hats or clothing are asked to stay in the shade or a suitable area protected from the sun, under the verandahs and shaded play areas.

Curriculum

Programs on skin cancer prevention are included in the curriculum.

Sun Safe behaviour is regularly reinforced and promoted to the whole school community through newsletters, staff meetings, school assemblies, student and teacher activities and in student enrolment packs.
